panels & laminate

Doors, panels and drawers in **DECORATIVE** 18mm Rubra Oak Woodmatt.

polytec

polytec is a leading brand of decorative surfaces, trusted by cabinet makers, joiners, designers and architects for over thirty-five years.

With a strong reputation for quality, style, and innovation, **polytec** offers a thoughtfully curated selection of decorative pre-finished boards and high pressure laminates, that deliver both durability and design flexibility across residential and commercial projects.

Whether you're seeking seamless coordination across surfaces or a striking feature finish, **polytec**'s diverse range allows you to bring any design vision to life. With products engineered for aesthetic appeal and everyday resilience, you can trust **polytec** to meet the demands of modern living and commercial use alike — without compromising on style.

From kitchens and wardrobes to retail fitouts and bespoke joinery, **polytec** products are designed to inspire and built to perform. Featuring a palette of our most sought-after colours and finishes, the range empowers trades and designers to craft interiors with confidence — backed by the consistency, craftsmanship, and service that defines **polytec**.

This brochure showcases real-life applications and highlights the textures, tones, and combinations that make our decorative surfaces so versatile. Select from the colour swatches in the ranges of 18mm and 16mm decorative panels, plus our range of benchtop laminates.

Whether you're a seasoned professional or starting a new project, you'll find inspiration, practical detail, and the trusted quality that has made **polytec** a staple in interiors for decades.

Doors, panels and shelving in **DECORATIVE** 18mm Blonde Oak Woodmatt.

DECORATIVE 18mm doors & panels

Style the surfaces within your project using **polytec**'s extensive Decorative 18mm range. Blend unique textures, tones, and finishes to achieve a contemporary look.

Mix warm colours with cool accents, or matt surfaces with a timber grain to create visual interest. Choosing from the Decorative 18mm range enables you to achieve a truly leading-edge design. Tall cupboards featuring timber grains or silky finishes that stretch from floor to ceiling provide the perfect backdrop for your choice of ultra glossy or super matt doors and drawers.

The Decorative 18mm range is a collection of **polytec**'s leading and most innovative textures – Woodmatt, Ravine, Legato, Createc and Venette. Designed to be complementary, these ranges allow you to infuse your spaces with the latest colours and finishes.

polytec's 18mm Woodmatt collection offers a broad spectrum of twelve oak colours inspired by traditional methods of staining natural timber, using the original Boston Oak structure as its base, in our signature Woodmatt finish. The collection of twelve colours ensures the ultimate mix-and-match aesthetic, versatility, and functionality.

polytec's Ravine finish showcases a raw embossed natural touch timber surface lightly coloured with warm and inviting shades.

polytec's Legato features a super matt, non-reflective finish. This subtle, understated look is imbued with lighter, timber tones and delivers a fresh refined presence.

polytec's Createc Gloss finish allows your kitchen to shine. Its ultra high gloss surface delivers sharp lines and a polished, sophisticated finish.

polytec's Venette is a leading edge innovation in decorative doors and panels, delivering exceptional fingerprint resistant technology in the purest matt form. The silky smooth finish of Venette creates an inviting and pleasant touch experience, whilst the pure matt surface assures low light reflection.

Blend your choices to capture the latest design trends and style your ideal space.

DECORATIVE 16mm doors & panels

polytec's Decorative 16mm doors & panels are a go-to surface solution for both residential and commercial projects. This range brings style, texture, and durability to a wide variety of applications including cabinetry, wall linings, shelving, custom-built furniture, feature panels, and more.

Available in a refined Matt finish, the Decorative 16mm range is low maintenance and crafted for everyday use, allowing designers, cabinet makers, and homeowners to create cohesive, visually striking interiors with ease.

Featuring a curated palette of versatile woodgrains and timeless neutrals, this range has been developed to suit any interior. From adding warmth and texture to achieving a sleek, minimalist look, the Decorative 16mm range makes it easy to suit any design style.

Whether you're designing joinery in a modern office, wall panelling in a retail fitout, entertainment units, bathroom vanities or a kitchen in a family home, **polytec's** Decorative 16mm doors & panels bring quality, consistency, and design flexibility to every project.

Create a cohesive design story throughout any interior with the trusted quality of **polytec**.

BENCHTOPS range

polytec's Benchtop collection brings together a sophisticated selection of stone-inspired, marble, and cement designs to elevate any residential or commercial space.

This carefully curated range offers a timeless palette across Smooth and Matt finishes, delivering surfaces that are not only visually striking but also durable and easy to maintain. Each design has been crafted to capture the natural beauty and depth of real stone while providing the practicality and performance required for everyday use.

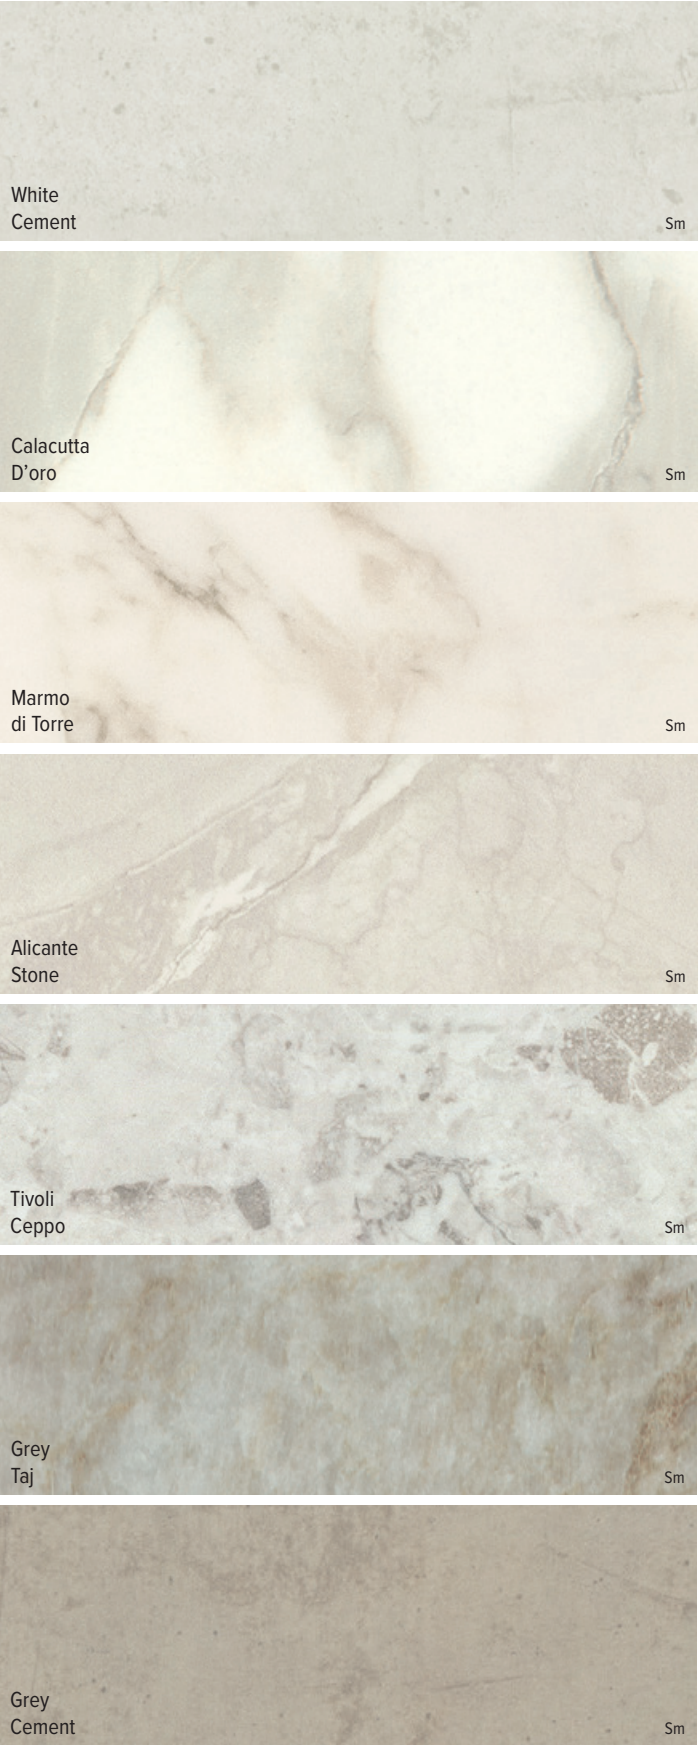

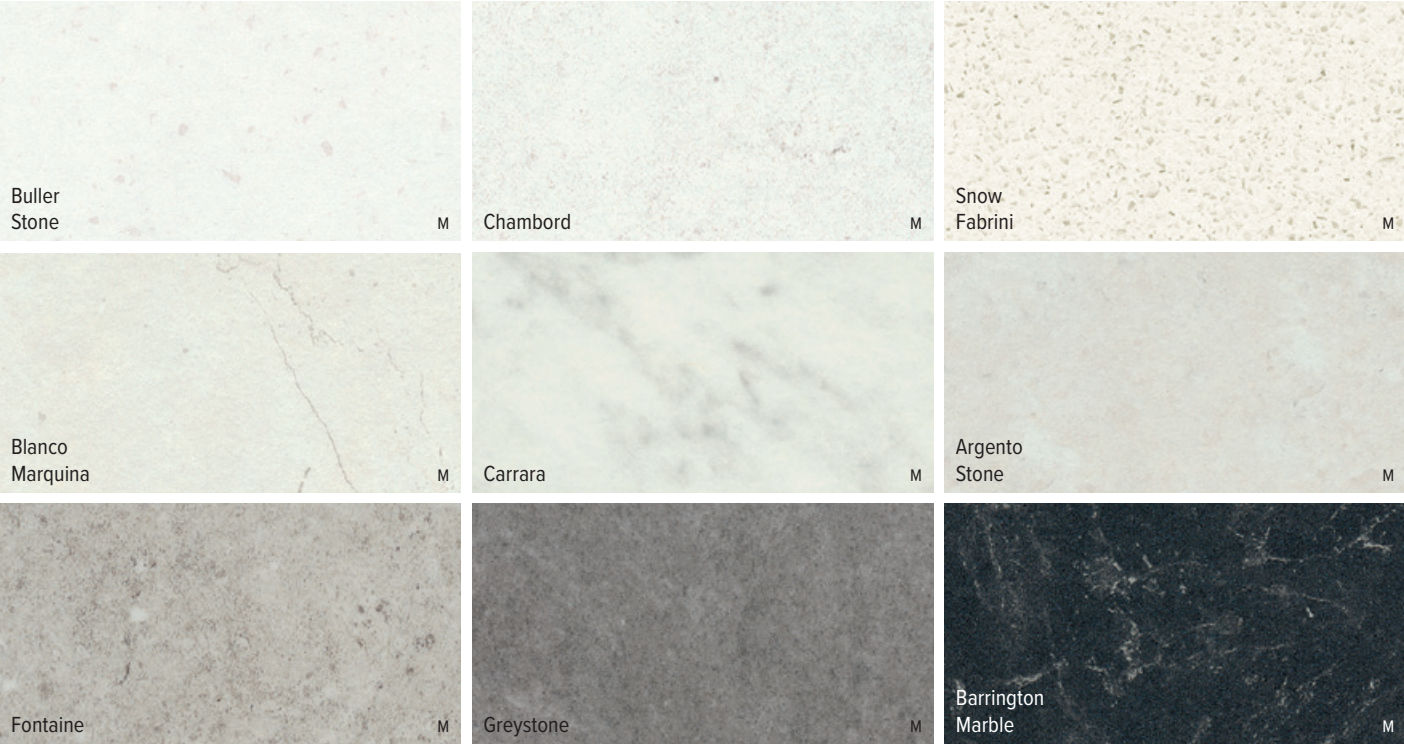

polytec Benchtops offer:

- Authentic designs inspired by natural stone, marble, and cement
- Smooth and Matt finishes for refined aesthetics and tactile appeal
- Durability and low maintenance, ideal for busy kitchens, bathrooms, and commercial environments

Engineered with quality and style in mind, **polytec**'s Benchtops range provides design flexibility, creating sophisticated spaces.

The Smooth finish provides a soft-to-touch feel with slight reflectance, elevating everyday laminate to a more luxurious and easy-care surface. The Matt finish delivers a contemporary, low-sheen aesthetic with durable practicality.

ENVIRONMENT & SUSTAINABILITY

At **polytec**, sustainability is ingrained in the core of our business operations, products, and work practices. Our continual dedication to improving and appropriately managing the environmental impact of our products involves our commitment to steadfastly reducing our carbon footprint, minimising waste, optimising energy efficiency and integrating ethically sourced materials into our product ranges.

Our MDF and Particleboard are manufactured from managed and renewable plantation pine that has been Green Tag, Responsible Wood and PEFC certified. All **polytec** board products are manufactured from E0 or E1 substrates, with particleboard now made from a percentage of recycled wood material.

In our pursuit of responsible waste management, we implement various recycling programs encompassing aluminium, metals, used oils, and timber waste, which is repurposed into packaging, particleboard, and energy. We actively engage with local government environmental initiatives, subject ourselves to voluntary audits, and uphold our internal Energy and Carbon Management Policy (ECM), aligned with the Australian Government's Energy Efficiency Opportunities (EEO) program.

polytec are striving to reduce carbon emissions by installing solar panels throughout all sites nationwide. Since 2018 over 46,000 solar panels across the network of facilities have been installed.

When installed, the Oberon facility was Australia's largest rooftop solar system with over 27,000 solar panels over eight hectares.

In our ongoing commitment to sustainability, **polytec** continues to refine and enhance our practices to contribute to the establishment of a circular economy, fostering a better future for all.

CARE & MAINTENANCE

polytec do not recommend the use of Decorative 18mm and 16mm products in a sliding or non-fixed application (hinged) unless the use of a mechanical stabilising system is fitted. Some decorative 18mm and 16mm products are supplied with a protective film to protect the surface during installation. This film must be removed within three months of installation.

Your Decorative 18mm and 16mm products are made from a Moisture Resistant Medium Density Fibreboard (MR MDF), but as with many wood based panels, they are not waterproof. Care should be taken to wipe up spills immediately, ensuring the doors are not exposed to high or continuous levels of moisture, steam and humidity.

Decorative 18mm and 16mm products should be cleaned by wiping down with a damp soft cloth and warm soapy water. Followed by drying using a soft or microfibre cloth so as not to leave any residue. For more stubborn stains use a mild household cleaning spray. Always ensure you refer to the recommendations provided by the manufacturer of the cleaning product before use.

polytec's Benchtop laminates are supplied with a protective film to protect the surface during installation. This film must be removed within three months of installation.

The surfaces of **polytec**'s Benchtops are made from a stain-resistant resin. The toughness and high impermeability of this surface means that **polytec**'s Benchtops laminate should require no more than wiping with a soft cloth, dampened with plain water or a household detergent mix to remove all common household spills. Always ensure you refer to the recommendations provided by the manufacturer of the cleaning product before use.

By following these simple steps you should retain a beautiful kitchen surface for many years.

Visit www.polytec.co.nz for specific care and cleaning information.

IMPORTANT

Darker colours will show superficial wear and tear more readily than lighter coloured surfaces and require more care and maintenance.

The colours and details shown in this brochure are to the highest standards in printing. However, they should only be used as an indication of actual product colour. To order your free colour sample visit www.polytec.co.nz.

polytec swatches and samples represent a small area of the overall colour structure, to view a large colour sample or a full sheet design, visit www.polytec.co.nz.

The use of our current samples gives the colour and finish that a customer would expect to receive. Samples are provided for colour and finish selection and **polytec** recommend testing a sample for fingerprint resistance and ease of cleaning. **polytec** does not guarantee exact colour matches across product ranges due to colour variation in each product group.
